PROFESSIONAL SUMMARY

Full-Stack Software Developer with 3.8+ years of experience building end-to-end, high-performance web applications and multi-tenant SaaS platforms across HRTech and FinTech. Balanced proficiency across modern frontend (React.js, Custom Hooks, Tailwind CSS) and robust backend architecture (PHP 8.2/8.3, Laravel 9–11, Redis, AWS). Cut report-generation latency 3x (~60s → ~20s), scaled infrastructure to 50+ businesses (~12,000+ employees), and independently engineered full-stack admin panels and dashboards from scratch.

TECHNICAL SKILLS

Backend: PHP 8.2/8.3, Laravel 9–11, REST API Development, Queue Jobs & Schedulers, Redis Caching & Queues, MVC, Livewire, Filament

Frontend: React.js, JavaScript (ES6+), Custom Hooks, Context API, Component-Based UI, Tailwind CSS, Bootstrap, HTML5, CSS3

Databases: MySQL, MariaDB, MongoDB, Schema Design, Indexing, Query Optimization, Database Migrations, Data Modeling

Cloud & DevOps: Docker, AWS ECS (Fargate), AWS ECR, EC2, Application Load Balancer (ALB), CI/CD (GitHub Actions, GitLab CI), Linux, cPanel, FileZilla, WinSCP

Tools & Security: Laravel Sanctum, Passport (OAuth2), RBAC, ZKTeco & SecureEye Biometric SDKs, Git, Postman, Agile/Scrum

PROFESSIONAL EXPERIENCE

Software Developer | Fixing Dots

Jul 2025 – Present

Raipur, Chhattisgarh, India · FixHR, FixHR Super Admin, FixGPT & FixCRM — Multi-Tenant SaaS Platforms · Laravel · React.js · MySQL · Redis · AWS ECS · Docker

- Spearheaded architecture across four multi-tenant SaaS products (FixHR, FixCRM, FixGPT, FixHR Super Admin), scaling to **50+ businesses (~12,000+ employees)** using Laravel, Redis-backed queues, and REST APIs.
- Engineered a **Reporting & Compliance Engine** delivering **40+ statutory/payroll reports** (Form B/C/D, EPF ECR, ESIC) for 50+ tenants, cutting latency 3x (~60s → ~20s) via **Redis queue jobs**.
- Architected a **dual-database Biometric Sync Engine** integrating **ZKTeco & SecureEye** hardware across 50+ branches, plus a cursor-based incremental sync job processing punch logs in 500-record batches with retry-safe execution.
- Implemented a unified **Leave Calendar Dashboard** with automated **Sandwich Leave detection**, eliminating manual HR deductions and policy disputes.
- Independently engineered the **FixHR Super Admin panel** from scratch using **Filament and Livewire**, centralizing subscription plans, billing (discounts, GST, invoices), and business-wise oversight across 50+ tenants.
- Streamlined ad-hoc HR reporting by developing the backend **multi-filter REST API** surface for **FixGPT**, an AI chat layer reusing existing FixHR report logic.
- Developed a **React.js role & permission management interface** for FixCRM using Custom Hooks and an ApexCharts tree-graph UI with live permission-diff tracking, secured via **Laravel Sanctum** token authentication.

Full-Stack Developer | Hyphun Technologies

Apr 2024 – May 2025

Bhilai, Chhattisgarh, India · MoneySync & Client Web Applications · Laravel · Livewire · Filament · MySQL

- Engineered MoneySync (moneysync.net), a financial product comparison platform, by implementing an automated **Excel data-ingestion and cleaning pipeline** for loan, card, and insurance product data.
- Streamlined content management and organic search visibility by building dynamic admin panels and public-facing pages with **Laravel, Livewire, and Filament**.

Software Developer | Yasham Software

Nov 2022 – Jan 2024

New Raipur, Chhattisgarh, India · Realispat & Enterprise Web Apps · Laravel 9 · PHP · JavaScript · MySQL

- Delivered Realispat (realgroup.org) by upgrading the platform to **Laravel 9**, adding role management, dealer handling, and UI improvements in an Agile development environment.

EDUCATION

Bachelor of Computer Applications (BCA) · Shri Rawatpura Sarkar University, Raipur

Aug 2019 – Jun 2022
